

Get the right care for your patient!

El Paso First Disease Management and Case Management teams are now conducting home visits! For our members only!

Benefits of a home visit:

1. The patient can be assessed in their home environment.
2. Case managers can potentially identify gaps in community resources.
3. Case managers can assist patient in service coordination so that patient gets the proper care they need.

A member can get a home visit for:

- Asthma education
- Nutrition education
- Diabetes education
- Proper emergency room use
- High risk pregnancy
- Mental Health condition requiring assistance.

HOW DO YOU REFER A PATIENT FOR A HOME VISIT?

Fill out and fax us the Case Management Referral form! Go to www.epfirst.com and under the provider tab, select the Case Management Referral form!

Fax: 915-298-7866
Attn: Disease/Case Management
