Provider Network and Credentialing

Sonia Fernandez
Contracting and Credentialing Manager

Onboarding Overview

- EPH's Contracting and Credentialing Department is the initial contact for network participation.
- Initial credentialing events: EPH is responsible for notifying Aperture of a Provider's intent to contract via a Start work file.
- Re-credentialing events: Aperture will notify Providers due for re-credentialing via letter the timeframe in which Provider must submit its credentialing application for processing.
- **Notification letters will be sent to Providers six(6) months prior to the end of the Provider's thirty-six (36) month re-credentialing cycle.**

Credentialing Process

- EPH must complete the credentialing process for a new provider and the claims system must be able to recognize the provider as a Network Provider no later than 90 calendar days after receipt of a complete application
- Expedited Credentialing-The following provider types can qualify for expedited credentialing process: Physicians, Podiatrists, Therapeutic Optometrists, Dentists, Dental Specialists, Licensed Clinical Social Workers, Licensed Marriage and Family Therapists and Psychologists.
- To qualify for expedited credentialing, a Provider must be a member of an established group that is already contracted;
 - ✓ be a Medicaid enrolled provider
 - ✓ Agree to comply with the terms of the contract between the group and EPH
 - ✓ timely submit all documentation and information required to begin the credentialing process

Credentialing Process

- Application forms accepted. Aperture will accept applications via Availity's portal, or Start Work File (SWF)(Application and documents are uploaded via a Provider Doc folder).
- Timeframe for Application Gathering: Initial Credentialing-the application should be complete within sixty (60) calendar days of receipt of the Provider on the Roster or SWF. Aperture will close the file with a status of PSV004 or "non profile" and return the file to EPH.

Primary Source Verification (PSV)

- What is primary source verification and why is this important?
- Primary source verification is the process in which a practitioner's education, training and licensure are verified.
- It helps the healthcare organization or facility maintain a skilled and qualified practitioner in their network or their staff.
- Through PSV, we ensure that all credentials are current and accurate to prevent medical negligence.
- What is considered a Primary Source?

Credential	Primary Source
State Medical License	Issuing State Licensing Board
DEA License	Drug Enforcement Agency
Education	Medical Schools
Postgraduate Training	Residency and predoctoral programs
Board Certification	Issuing Board
Current Competence	Peers who are acquainted by the physicians performance

Texas Health Steps Quick Reference Guide - revised 06/01/2019

THSteps Requirements for Elevated Blood Levels

THSteps Reminders

In accordance with Texas Administrative Code (TAC) Title 25 (Part 1) Chapter 37 Subchapter Q Rule §37.334, the elevated blood lead level requirement has been reduced from 10 mcg/dL to 5 mcg/dL.

For an elevated blood lead level of 5 mcg/dL or greater, the provider must perform a confirmatory test using a venous specimen.

The confirmatory specimen may be sent to the Department of State Health Services (DSHS) Laboratory, or the client or specimen may be sent to a laboratory of the provider's choice.

Information related to blood lead screening and reporting for clients who are under 15 years of age is available on the DSHS Blood Surveillance Groups website

<https://www.dshs.state.tx.us/lead/providers.shtm>

Follow Up Blood Lead Testing

THSteps Reminders

- If the blood lead level is 5 mcg/dL or greater on a venous diagnostic test, the child must be retested according to the schedule in this Texas Childhood Lead Poisoning Prevention Program (TXCLPPP) table

Schedule for Follow-Up Venous Blood Lead Testing after Diagnostic Venous Sample		
Venous Blood Lead Level (mcg/dL)	Early Follow-up (first 2-4 tests after identification)	Late Follow-up (after BLL begins to decline)
5-9	3-6 months	6-9 months
10-14	3 months	6 months
15-19	1-3 months	3-6 months
20-24	1-3 months	1-3 months
25-44	2 weeks-1 month	1 month
45 and up	As soon as possible	Chelation with subsequent follow-up

Medical Management of Elevated Blood Lead Levels

THSteps Reminders

Children with blood lead levels of 5 mcg/dL or greater require medical management, according to the CDC.

Medical management:

- is performed by a primary care provider
- includes family education about lead exposure prevention
- Provides assistance in identifying sources of lead exposure and requesting an environmental investigation
- TXCLPPP will send the child's health-care provider a form explaining what type of management is required for the child's out-of-range blood level (when a blood test identifies a child has an elevated blood lead level)

When to request an Environmental Investigation

- If child has a venous blood lead test result of 20 mcg/dL or greater.
- If child has venous blood lead test results between 10 mcg/dL and 19 mcg/dL on separate tests at least 12 weeks apart.
- Use TXCLPPP's Request for Environmental Investigation.

Follow-up Physician Resource Forms

THSteps Reminders

- [Pb-102: Follow-up of Initial Elevated Blood Lead Level](#) - Used by healthcare providers for follow-up of elevated blood lead levels of a child.
- [Pb-104: Physician Checklist for Parent Education Topics](#) - Used by healthcare providers to determine the appropriate lead educational material to provide parents for medical care, environmental intervention, and nutritional intervention.
- [Pb-109: Reference for Blood Lead Retesting and Medical Case Management - Revised August 2018](#) - Used by healthcare providers to determine when follow-up blood lead testing is necessary. Specifically: “Schedule for Obtaining a Diagnostic Venous sample”, “Schedule for Follow-up Venous Blood Lead Testing After Diagnostic Venous Sample”, and “Recommendations for Children with Diagnostic Elevated Blood Lead Levels”

At the top, there is a header bar with a hamburger menu icon, the title 'Authorizations', and three utility icons (envelope, person, power). Below the header, the form is divided into two sections. The first section, titled 'AUTHORIZATION NUMBER', contains a blue rectangular field and a '+ Show details' link. The second section, titled 'AUTHORIZATION NUMBER', contains a blue rectangular field and a '- Hide details' link. Below this, the form lists several fields: 'FIRST NAME' (blue field), 'LAST NAME' (blue field), 'PROVIDER' (long blue field), 'DATE SUBMITTED' (blue field), and 'STATUS' (text 'APPROVED'). At the bottom of the app view, there is a paragraph of text explaining that certain benefits require authorization and are subject to terms, conditions, limitations, and exclusions. It also states that users have a right to appeal if they do not agree with the decision, with a 60-day window from the date of the adverse determination letter. The text concludes by stating that users can file an appeal in writing, by fax, or by calling El Paso Health. The footer of the app view includes the 'El Paso Health' logo and three navigation icons (hamburger menu, circle, and back arrow).

- Prior Authorizations can be submitted to Navitus by phone or fax.
- Providers can call 1-877-908-6023 to submit PA or fax form to 1-855-668-6553.
- Navitus is open 24 hours a day/7 days a week. Turn around time for PA determination is 24 hours for STAR and 72 hours for CHIP.

72-hour Emergency Supply

- A 72-hour Emergency Supply allows pharmacy to dispense a 3 day supply of medication, at no cost to member, to allow prescriber time to submit PA
- The 72-hour Emergency Supply should be dispensed any time a PA is not available and a prescription must be filled for any medication on the Texas Vendor Drug formulary.
- If the prescribing provider cannot be reached or is unable to request PA, the pharmacy should submit an emergency 72-hour prescription.

72-hour Emergency Supply, cont.

- Pharmacies should submit:
